PhD Progress Report (Full Time)

Insert Name

Last update: April 24, 2018

PhD Title

Supervisors

Appraisal Panel

Start date

Target end date

PURE research profile <https://pure.lancs.ac.uk>

Research outline

Update this regularly, it should become more detailed as the PhD develops, towards an abstract for the thesis by the end of the PhD.

Completion Timeline

Milestones and publication plans for the remainder of the PhD.

date milestone

Training & Development

Chronological list of all training and development undertaken. This can include courses, presentations given, teaching, and anything else you consider useful training and development for your PhD and future career.

date details

4 months

Date

School presentation

Provide details of presentation to the School, including date and format. Provide a brief reflection of any feedback received. If this has not happened yet, please provide plans for the presentation before the 10 month panel, and give the details there.

Progress report

Provide a brief summary of the work undertaken for the PhD to date, including a discussion of any problems encountered.

Training and development

Provide details of training and development needs during the PhD, and details of how these needs will be addressed.

10 months (confirmation panel)

Date

Progress report

Provide a brief summary of the work undertaken since the last appraisal stage and against the completion timeline, including a discussion of any problems encountered.

Training and development

Discuss any training and development undertaken since the last appraisal. Also discuss any new training and development needs, and future plans.

16 months

Date

Reflection on confirmation panel

Provide a brief reflection on the confirmation panel feedback.

Progress report

Provide a brief summary of the work undertaken since the last appraisal stage and against the completion timeline, including a discussion of any problems encountered.

Training and development

Discuss any training and development undertaken since the last appraisal. Also discuss any new training and development needs, and future plans.

22 months (annual review)

Date

Progress report

Provide a brief summary of the work undertaken since the last appraisal stage and against the completion timeline, including a discussion of any problems encountered.

Training and development

Discuss any training and development undertaken since the last appraisal. Also discuss any new training and development needs, and future plans.

Status summary

Summarise the state of the research. What work has been completed, and what work still needs to be done? List publications submitted, in progress, and planned.

28 months

Date

Progress report

Provide a brief summary of the work undertaken since the last appraisal stage and against the completion timeline, including a discussion of any problems encountered.

Training and development

Discuss any training and development undertaken since the last appraisal. Also discuss any new training and development needs, and future plans.

34 months (annual review)

Date

Progress report

Provide a brief summary of the work undertaken since the last appraisal stage and against the completion timeline, including a discussion of any problems encountered.

Training and development

Discuss any training and development undertaken since the last appraisal. Also discuss any new training and development needs, and future plans (if relevant).

Status summary

Describe in detail the state of the research and thesis. What work (if any) needs to be completed before the thesis write-up can be completed? Which thesis chapters still need writing, how much work is needed for each chapter? List publications submitted, in progress, and planned.
